

Name **Kafee Dong Ma Fai
(Dong Ma Fai Coffee)**
Country **Thailand**

Date of registration:
13/09/2013

Source: DIP Thailand

Main characteristics/features

Dong Ma Fai Coffee (Kafee Dong Ma Fai) is an Arabica strain which has a well-balanced taste and aroma. Its level of caffeine is less than 1 % of its weight, making it perfect for low-caffeine coffee lovers.

Geographical area

NakhonRatchasima province, located in the centre to north-east of Thailand.

Production/processing

Link between product and territory

The soil in the area of the Dong Ma Fai village is volcanic, containing gravel and a small amount of sand, making it good for drainage. The weather is relatively warm during the day but cooler at night. This area has a moderate level of rainfall. These factors make the Dong Ma Fai Coffee planting cycle different from that of other coffee plantations in the area, and the level of caffeine in the coffee naturally low.
