#### Main characteristics/features

#### Geographical area

Ninh Bình goat meat is raw or frozen goat meat in the form of either whole, half, quarter carcass or sliced meat. Ninh Bình goat meat is highly elastic. Its strings are consistently large, long and firm, not sticky when touched. The meat colour is bright red, with bright and defined marbles with fat lines run along the meat strings. Ninh Bình goat meat has good water retention. The meat will not become dry and hard and maintain its soft texture and sweet taste.

#### Production and processing

#### Link between product and territory

The breed for Ninh Bình goat meat is either mountain goat, Vietnamese goat or "Bách Thảo" goat. Goats are free ranged from 7 – 8 A.M. to 5 – 6 P.M. Ninh Bình goats are fed mostly with natural feed. Reserve feed is required during the winter or rainy days. Goats may be butchered at 9 to 12 months old, at the weight of 17 to 45 kilograms for bucks and 15 to 35 kilograms for does. Goat meat is packaged and stored at -4°C.

Climate conditions of high temperature, humidity and rainfall are suitable for cultivating feeds for the goats. The geographical area has a wide selection of goat's natural feed, in which over 50% are medicinal herbs. Ninh Bình goats are free ranged and allowed to find food freely on the hills and meadows.
